Every joint, edge and curve is resolved with an uncompromising attention to detail. While the Gas chair's fluid, minimal lines make it seem as light as air, it holds the Tuv Rheinland's GS Certificate for strength and good design. The Gas chair's 4-leg frame (available with or without arms) is made from polished aluminium with either a gloss or matt chrome finish. There are a number of options available for the back and seat of the chair: standard polypropylene in a choice of house colours; fully upholstered in a choice of house fabric, leather or to clients own selection; or mesh back with upholstered seat.

Certification
BS EN 1021-1 1994 fire test

Warranty
4 year structural warranty

Lead time
12 weeks

Maintenance
Refer to Stylecraft care + maintenance guide

Stackable
Up to 8 chairs

Colours shown are indicative only
