Osmo Lounge Chair

by Numen/For Use

The design of Osmo is based on the classic typology of chairs for terraces in hospitality settings along the Adriatic coast. The choice of a metal or timber seat and backrest ensures suitability for domestic or commercial outdoor environments.

The Osmo Lounge Chair features a generous seat width, with the angular metal frame accommodating the timber or metal seat and backrest. The timber backrest and seat are available in a choice of Larch, Iroko or Teak, with the frame powdercoated in a choice from ten house colours.

Osmo is also available in a chair version to complete the collection.
