The Tommy low stool marries solid curves with an elegant style and is constructed from solid Ash or Oak timber. The stool is appropriate for everyday use in corporate, hospitality and domestic environments. The version constructed from Ash is available in an open-pore lacquered finish to natural or black stain.

The Tommy low stool is a stocked item in Ash to black or natural stain, if out of stock or for the Oak option the lead time is 14 weeks. An optional seat pad for extra comfort is available, and coloured lacquer stains available upon request.
