Versatile and practical is the George sled base chair. Suitable for educational, hospitality and workspace, the George chair features a beech ply shell which is fully upholstered in clients specification of fabric or leather. The upholstery features a rounded form and is available in either plain or half horizontal line stitch. The sled base is fabricated from mild steel and finished to polished chrome or a range of standard powdercoat colours.

George is a complete seating collection and also comprises 4 leg versions, castor base models and barstools.
